Arthur Smith Woodward was the world's foremost expert on fossil fish. He was an unwitting victim of the Piltdown fraud, which overshadowed his many scientific contributions. This book highlights his main scientific achievements and their current relevance, and provides insights into his career as an international scientific leader.

Contents

Smith, M., Johanson, Z., Barrett, P. M. & Richter, M.

Introduction and bibliography

Shindler, K. & Smith, M.

'A Splendid Position': The life, achievements and contradictions of Sir Arthur Smith Woodward 1864–1944

Smith, M.

The Natural History Museum Fossil Fish Collection: Smith Woodward's role in the development and use of this priceless resource

Bernard, E. L. & Smith, M.

Arthur Smith Woodward's fossil fish type specimens

Milner, A. C.

Lady Smith Woodward's tablecloth

Smith, M. & Shindler, K.

Lady Smith Woodward's memories: introduction

Forey, P. L.

Smith Woodward's ideas on fish classification

Underwood, C., Meredith

Smith, M. & Johanson, Z.

Sclerorhynchus atavus and the convergent evolution of rostrum-bearing chondrichthyans

Duffin, C. J.

Cochliodonts and chimaeroids: Arthur Smith Woodward and the holocene

Underwood, C., Ward, D. & Guinot, G.

Development of understanding of the Mesozoic and Cenozoic chondrichthyan fossil record

Friedman, M., Beckett, H. T., Close, R. A. & Johanson, Z.

The English Chalk and London Clay: two remarkable British bony fish Lagerstätten

Brito, P. M. & Richter, M.

The contribution of Sir Arthur Smith Woodward to the palaeoichthyology of Brazil – Smith Woodward's types from Brazil

Maisey, J. G.

Mr Mawson's fossils

Liston, J. J.

Leedsichthys problematicus: Arthur Smith Woodward's 'most embarrassing enigma'

Turner, S. & Long, J.

The Woodward factor: Arthur Smith Woodward's legacy to geology in Australia and Antarctica

Milner, A. C. & Barrett, P. M.

Smith Woodward's contributions on fossil tetrapods

Steel, L. & Buffetaut, E.

Arthur Smith Woodward, Florentino Ameghino and the first Jurassic 'Sea Crocodile' from South America

Dean, C., De Groot, I. & Stringer, C.

Arthur Smith Woodward and his involvement in the study of human evolution

Beckett, H. T. & Friedman, M.

The one that got away from Smith Woodward: cranial anatomy of Micronotus (Acanthomorpha: Scombridae) revealed using computed microtomography
